

Signature Request and Status

Sending Signature Requests

HelloSign for Confluence adds two page actions into the page tools drop-down menu. First is the HelloSign Signature Request which will give you the following popup after clicking it.

In the HelloSign Signature Request Popup you can insert the subject and message of the signature request, specify the names and email addresses of the signers, and optionally attach the signature request to another page within Confluence.

Checking the Status of Signature Requests

After sending out a signature request on a page, the HelloSign Status page action is now available in the page tools drop-down menu.

Non-Disclosure Agreement

Created by admin 7 minutes ago

Information exchanged between the disclosing company and the receiving party will be kept strictly confidential. Any leakage of the information, or breach of contract involving related technologies, software and the like will be severely penalized

I agree to the above agreement

- HelloSign Signature Request
- HelloSign Status**

Each signature request for the current page can be seen in the pop up dialog. The sender, date sent, and signers with their statuses are shown.

HelloSign Signature Status

Sender: admin
Date Sent: 06/15/2017 1:25 PM

Signer Name	Signer Status	Signer Number
Jaime Romero	signed	1

Isos Technology Close

If you sent out a signature request using the HelloSign for Confluence add on, you will be notified as signers sign the HelloSign document.

Canceling Signature Requests

The cancel button can be found in the HelloSign Status popup. Signature requests can only be cancelled before they are complete, and it can only be cancelled by the user that sent it.

The screenshot shows a 'HelloSign Signature Status' popup window. At the top, it displays the sender information: 'Sender: admin' and 'Date Sent: 06/14/2017 2:44 PM'. Below this, there is a 'Cancel Signature Request:' label followed by a 'Cancel' button. A table below the button lists the signature request details:

Signer Name	Signer Status	Signer Number
Jaime Romero	pending	1

At the bottom of the popup, the text 'Isos Technology' is on the left and a 'Close' button is on the right.
